

GENERAL ELECTION 2017 CONSTITUENCY DOSSIER

Dr Adrian Worton thegameisafoot.weebly.com

How to use this guide

This guide is designed to help with following the events of the election night itself, as the results pour in.

The data within this guide is based on the election model built by myself, which you can find on thegameisafoot.weebly.com. It is based on bookies' odds, and uses these to give probabilities for each party standing in each constituency.

On the next page you will find a summary of our predictions for the election overall. These predictions, along with the probabilities given elsewhere in the dossier, are made using data from the morning of the 8th of June.

In the main body of this dossier, you will find each UK constituency listed alphabetically. Sometimes constituencies are listed differently depending on the source, namely ones with a compass direction in their name. For instance, Central Devon might be written Devon Central. In this guide, constituencies relating to a county have the compass direction at the start, such as Central Devon. Constituencies relating to a city or town have the compass direction at the end, such as Belfast South.

For each constituency, you will find various information. Firstly, the list of favourite, 2nd-favourite and 3rd-favourite list the three parties most likely to win the seat, according to our model, and our prediction of each party's chances. The incumbent is highlighted in bold.

In the 'Marg' column you will see the 100 closest seats in our model listed. So the seat with a 1 in this column is the closest, the one with 2 the second-closest, and so on.

In the '2015 Dec' column is the time at which we recorded the result of that seat in 2015. This will provide a rough guide of when to expect that seat's result this year.

The Notable candidates column is a list of (fairly arbitrary) notable candidates for various seats. It is not necessarily the incumbent, some are challengers.

Finally, you can log onto TGIAF to follow our election coverage live. You will find all sorts of information and predictions as the night unfolds, and this page can be found at http://thegameisafoot.weebly.com/election-live-2017.html.

I hope this guide is as useful for you as it the model has been fun for me to create!
